EDUCATION

Lahore University of Management Science
MSc Artificial Intelligence

Aug 2024 - Present

University of Management and Technology
BSc Computer Science

Oct 2019 – Dec 2023

PROFESSIONAL EXPERIENCE

University of Lahore – Junior Lecturer

June 2024 – Present

- I am responsible for conducting lab sessions for Programming Fundamentals (PF), and OOP. My role involves providing guidance and support to students during lab sessions to enhance their learning experience.
- I assist in the managing and development of lab and lab materials and resources to align with the course curriculum. Collaborate with senior faculty members to evaluate student performance and provide constructive feedback.
- I participate in academic meetings and contribute to the continuous improvement of the course structure.

Phoenix Design – Web Designer

July 2022 – Dec 2022

- I am skilled in Webflow, HTML, and CSS. I revamp websites using responsive design for optimal viewing experiences across devices.
- Managed international clients and delivered tailored designs to meet their specific requirements.

ACADEMIC PROJECTS

Bankruptcy Prediction ML Model

- Developed a machine learning model to classify banks as bankrupt or non-bankrupt.
- Implemented classification algorithms such as Logistic Regression, Decision Trees and XGBoost.
- Evaluated model performance using metrics like accuracy, precision, recall, and F1-score.

AR based E-Commerce Application

- Developed a fully functional store using **Flutter** and **Dart**. Integrated an **Augmented Reality** (AR) module to enhance the shopping experience.
- Implemented seamless user interface design for optimal usability. Focused on delivering an engaging and interactive user experience through AR.

Web Server Integration on Cloud

- Configured and deployed **EC2** instances for scalable web server hosting on AWS. Set up secure and optimized environments for web applications.
- Integrated **Amazon RDS** for efficient database management and cloud storage. Configured security groups, key pairs, and IAM roles to manage access control and data protection.

Building a Batch Analytics Pipeline on HDFS & Hive

- Designed and implemented a batch analytics pipeline using HDFS and Apache Hive.
- Created and optimized Hive tables to perform structured data analysis.

CO-CURRICULAR ACTIVITIES

UMT Blood Donation Society

Lahore, Pakistan

Assistant

- Actively contributed as a member of a blood donation society. Helped raise awareness about the importance of blood donation and its impact on saving lives. Provided logistical support during blood collection, donor registration, and post-donation care.

CERTIFICATIONS

- Programming for Everybody – **University of Michigan** August 2023
- What is Data Science? – **IBM** July 2023
- Database and SQL for Data Science – **IBM** July 2023
- Crash Course on Python – **Google** July 2023
- SQL for Data Science – **University of California** July 2023
- GAT (86th percentile) - **NTS** July 2023
- Machine Learning Foundations – **LinkedIn** Feb 2023
- Communication Foundations – **LinkedIn** Feb 2023

SKILLS & INTERESTS

Skills: HTML, CSS, Bootstrap, Webflow, SQL, MSSQL, Snowflake, Redash, Amazon AWS, Kubernetes, Spring boot, Docker, Arduino, Figma, Model training, Accuracy Metrics, Fine Tuning, Microsoft Excel (*Intermediate*), Problem-Solving

Interests: Tennis, Gaming, Startups, Anime, Consultancy, Stock Market, World Affairs, History
